

Dear Sir or Madam,I am an avid XM Radio listener. This is a legal service which operates in the broadcast industry. As a valid entity in the United States, XM Radio has a right to offer its listeners any legal form of radio broadcast.

I support XM Radio in any attempt to stop competitors from limiting First Amendment Rights of Free Speech. I support XM Radio in any attempt to conduct free and legal business without improper hindrance from competitors. I support XM Radio in its attempts to operate freely in the business world, in a legal manner, without having to fear that competitors will ruin their business without due process of law.

Sincerely,
William H. Watkins
